PCR - Person Centered Review

PDR – Provider Discovery Review

QA – Quality Assurance

QAR – Quality Assurance Reviewer

QC - Quality Council

QI – Quality Improvement

RM – Regional Manager

RTDR – Real Time Data Report

SC – Support Coordinator

SSRR – Service Specific Record Review

The Handbook – Developmental Disabilities Waiver Services Coverage and Limitations Handbook

# **Executive Summary**

In January 2013, the Florida Statewide Quality Assurance Program (FSQAP) moved into the fifth year of the contract providing oversight processes of provider systems and person centered review activities for individuals receiving services through the Developmental Disabilities (DD) Home and Community-Based Services waivers or the Consumer Directed Care Plus (CDC+) program. Delmarva Foundation, under a contract with the Agency for Health Care Administration (AHCA), conducts Provider Discovery Reviews (PDR) and Person Centered Reviews (PCR) to provide AHCA and the Agency for Persons with Disabilities (APD) information about providers, individuals receiving services, and the service delivery systems.

New tools and processes were implemented in February 2013. Data in this report reflect results from reviews completed between January and March 2014, but comparisons are appropriate only to the previous year, February - September 2013. Only Individual Interview Instrument and NCI results are comparable to earlier years of the contract.

For the first year of implementation of the new tools and processes, providers were offered technical assistance on all new standards, results from which were not factored into their overall PDR score. However, as of February 2014 many of these standards were factored into the scoring process. Results on standards specific to the iBudget Handbook, which is not yet promulgated, are not yet factored into the provider's overall score.

Findings indicate providers are over 90 percent compliant with overall policy and procedure requirements, training requirements, and standards specific to each service rendered (Service Specific Record Reviews—SSRR). Observations of group homes and Day Program facilities continue to show excellent performance ratings, with an average of 97 percent compliance across the state.

Compliance on background screening has remained fairly consistent over the years, around 75 to 80 percent. However, in the current time period, approximately 91 percent of providers had all the required documentation available. In addition, billing discrepancies have been consistently noted for approximately 40 to 50 percent of providers over the previous four years. Data to date this year show approximately 29 percent of providers had at least one potential billing discrepancy.

Results from the Individual Interview Instrument (III) indicate a small increase on some standards and small decrease on other, compared to Year 4. However, only a small portion of the total sample of individuals has been reviewed and these changes may not be noted as trends when all the data are collected and analyzed. The Health Summary findings to date indicate a number of individuals receiving services are taking multiple prescription medications, many 10 or more. Based on these

and other findings, several recommendations are provided to the state. However, additional analysis, discussion, and recommendation will be provided in the Annual Report when all data from PCRs and PDRs are available.

#### Introduction

In January 2010, the Agency for Health Care Administration (AHCA) entered into a contract with Delmarva Foundation to provide quality assurance discovery activities for the Home and Community-Based Services (HCBS) waivers and the Consumer Directed Care Plus (CDC+) program, administered by the Agency for Persons with Disabilities (APD). Through the Florida Statewide Quality Assurance Program (FSQAP), Delmarva monitors providers rendering services through the Developmental Disabilities (DD) Home and Community-Based Services iBudget waiver utilizing individual interviews, observations and record reviews to help determine the overall quality of the service delivery system. This process includes individuals receiving services through the Consumer Directed Care Plus (CDC+) program who are also interviewed, with record reviews completed for the CDC+ Consultant and Representative.

APD has designed a Quality Management Strategy based on the HCBS Quality Framework Model developed by the Centers for Medicare and Medicaid Services (CMS). Three quality management functions are identified by CMS: discovery, remediation, and improvement. Delmarva's purpose is within the discovery framework. The information from the review processes is used by APD to help guide policies, programs, or other necessary actions to effectively remediate issues or problems uncovered through the discovery process. Data from the quarterly reports are examined during the Regional Quarterly Meetings and Quality Council meetings to help target local and statewide remediation activity.

Delmarva's discovery process is comprised of two major components: Person Centered Reviews (PCR) and Provider Discovery Reviews (PDR). The primary purpose of the PCR is to determine the quality of the person's service delivery system from the perspective of the person receiving services. The PCR includes an interview with the person as well as a review of records for all providers, including the support coordinator, who are providing services for the individual. The focus of the PDR is to review provider compliance with requirements and standards specified in the Developmental Disabilities Waiver Services Coverage and Limitations Handbook (The Handbook) for the waiver programs. Within the CDC+ program, consultants and representatives are reviewed on the standards set forth by APD and AHCA.

As of July 2013, all individuals receiving waiver services, including CDC+ participants, had been transitioned to the new iBudget waiver. With the iBudget, it is easier for individuals to select and change services that fall within the budget allotted to them. The Delmarva tools were revised to reflect iBudget standards and other changes requested by AHCA and APD. Due to the extensive tool revisions, with the exception of the Individual Interviews (including NCI data), trending

analysis is only appropriate since 2013. However, because of delays in approving the new tools, they were not implemented until February 1, 2013. Therefore, comparison to data for 2013 includes results for reviews completed between February and December 2013.

This is the report for the first quarter of the fifth year of the FSQAP contract (CY 2014). The report is divided into three sections.

- Section I: Significant Contract Activity During the 4th Quarter
- Section II: Data from Review Activities (includes Year To Date results)
- Section III: Discovery and Recommendations

# Section I: Significant Contract Activity During the 3rd Quarter

## **Information Sharing**

#### **Staff Conference Calls**

Conference calls continue on a bi-weekly basis for all reviewers and managers to provide: updates on procedures, and/or APD and AHCA policy; a forum for questions; and an avenue to support training and reliability processes. The managers have implemented the use of webinars and go-to-meetings, when appropriate, to enhance training and presentations provided during the calls. On alternate weeks managers often meet with their teams to review information, discuss questions or issues from reviews, and gather feedback from reviewers to help with updates to tools or standards, and changes to how a standard should be interpreted based on information from AHCA and APD. The team meetings also assist with discussing issues/concerns pertinent to the specific region in which the reviewers typically work.

#### **Status Meetings**

Status meetings are held to provide an opportunity for Delmarva, AHCA, and APD representatives to discuss contract activities and other relevant issues as necessary. Data collected in previous months are often presented and reviewed for trends and potential remediation. During the first quarter of this contract year, Status Meetings were held on January 15, February 20, and March 20. During the March meeting, Val Bradley and Elizabeth Pell, from HSRI, presented a comprehensive training on the new CMS HCBS waiver requirements.

# **Internal Quality Assurance Activities**

#### **Report Approval Process**

In order to reduce error rates and enhance reliability, the Delmarva management team continues to review all PCR and PDR reports before they are approved. Managers work with the reviewer if an error is discovered and provide technical assistance if needed. After management approval, reports are mailed to providers or support coordinators, and posted to the web site for APD and AHCA.

#### **Audit Results**

Delmarva completed the annual AHCA audit on February 4, 2014, with the Contract Manager Charles Ball and his supervisor Leigh Meadows, receiving a perfect score with no citations. During the quarter, Delmarva also completed an internal ISO audit with the Corporate Compliance Officer Roxanne Rogers and received a perfect score and no citations.

#### Reliability

During the first quarter of the year, Field Review Reliability for the PCR and PDR processes was completed and passed by one QAR. File Review Reliability for the CDC+ Representative Service tool was completed and passed by all 25 reviewers and all Regional Managers.

### **Internal Training**

Informal training is provided during bi-weekly conference calls with all staff. Topics for training are generated from review activities, AHCA and APD clarifications, and reliability activities.

The entire Delmarva FSQAP staff gathers once a year for training and other information sharing activities. The four-day training was held February 3-6, 2014. The focus was on the 2/1/2014 updates to the Delmarva Discovery tools. However, the conference also included: speakers from AHCA and APD; Leadership Skills training from Delmarva's corporate office; Preventive Health Expectations (Linda Tupper, DD Nurse); preview of the new Billing Discrepancies application; and presentation of data from the review processes. The next annual training will be planned for early 2015.

## **Regional Quarterly Meetings**

Quarterly Meetings are held in each Region with the Delmarva Manager responsible for the Region and other APD personnel, including the Regional Administrator and Medical Case Managers if possible, and a representative from AHCA. The purpose of the meetings is to discuss and interpret data from the Delmarva reviews to help APD develop appropriate remediation activities, and to update all entities on current activities in the Area. Face-to-face meetings were held in each APD Region this quarter.<sup>1</sup>

#### **Other Activities**

Throughout the year Delmarva reviewers and managers often participate in various training and workgroup activities. During the first quarter of the year Delmarva:

- Conducted training at the FARF annual conference in January 2014. Delmarva reviewed the standards that had been scored with technical assistance in 2013 and not incorporated into the provider's overall performance evaluation, but as of February 1, 2014, will be part of the provider's score.
- Incorporated feedback from a variety of stakeholders to conclude edits to the Health Summary and iBudget Discovery tools, effective February 1, 2014.

<sup>&</sup>lt;sup>1</sup> Minutes for each meeting are on the FSQAP Portal Client Site and available to AHCA and APD (http://mossbox/SiteDirectory/dfmc/pav/pm/DD/FSQAP/client/APDDelmarva%20Quarterly%20AgendasDataMinutes/Forms/AllItems.aspx).

 Delmarva staff attended Developmental Disabilities Awareness days (DD Days) at the Capital and disseminated materials to parents, individuals receiving services, providers, and other stakeholders.

## **Feedback Surveys**

#### National Core Indicator (NCI) Consumer Survey Feedback Survey

After each individual NCI interview, Delmarva provides the individual with a feedback survey. The individual is encouraged to complete the feedback survey, which is mailed directly to Human Services Research Institute (HSRI). Between January and March 2014, 56 surveys were returned to HSRI, a 13 percent return rate (56/413). Results to date are based on a very small return rate but are positive and indicate the following:

- 45 of the 56 respondents (80.4%) participated in answering the Consumer Survey.
- 17 (30.4%) feedback forms were completed by the person receiving services, with 38 (67.9%) completed by an advocate, and 5 (8.9%) by a staff member where the person lives or receives services.
- 53 respondents (94.6%) indicated the interviewer explained what the survey was about.
- 46 NCI interviews (82.1%) took place in the home.
- 39 individuals (69.6%) indicated choosing where to meet for the interview.
- All respondents (100%) felt the interview was scheduled at a convenient time, and 49 respondents (87.3%) felt it took about the right amount of time.
- All but one respondent felt the interviewer was respectful.
- 53 (94.6%) respondents felt the interviewer explained what the survey was about.
- Most individuals indicated the questions were not difficult to answer (96.4%).
- Only one respondent thought some of the questions were difficult to answer and 87.5 percent indicated the interviewer explained the person did not have to answer the questions.

#### **Provider Feedback Survey**

After each PDR, providers are given the opportunity to offer feedback to Delmarva about the review process and professionalism of the reviewer(s). Providers are given a survey they can complete and mail/fax to Delmarva, or surveys can be completed online, on the FSQAP website. Between January and March 2014, 44 surveys were received from providers who participated in a PDR. The following table provides each question and the percent of positive responses. With one exception, results show over 100 percent positive responses on each measure. One respondent indicated not receiving the preliminary findings report before the QAR left the site.

Table 1: Results from Provider Feedback Surveys	
Received Between January and March 2014	
Question	Pct Yes
Did the Quality Assurance Reviewer (QAR) identify the documents needed to complete the review?	100%
Did the QAR explain the purpose of the review?	100%
Did the QAR explain the review process and how the QAR or Delmarva team would conduct the review?	100%
Did the QAR answer any questions you had in preparation for the review?	100%
Did the QAR refer you to the FSQAP website, including the tools and procedures?	100%
Did the QAR arrive at the review at the scheduled time?	100%
If no, did the QAR call to notify you he/she might be a little late? (N=0)	NA
Did the QAR provide you with the preliminary findings of your Provider Discovery Review (PDR) before leaving?	99%
If you scored Not Met on any of the standards, did the QAR explain why? (N=26)	100%
Total Responses	44

# **Summary of Customer Service Calls**

During the first quarter of the fifth contract year, January – March 2014, 334 calls were recorded in the Customer Service Log, with an average response time of one day for each call.<sup>2</sup>

# **Quality Council**

The Quality Council (QC) meeting was March 19, 2014, in Tallahassee. This date was chosen so QC members coming to Tallahassee for Developmental Disability Awareness Day on March 18 would be able to attend both events. QC Agenda items included:

- Refresher of activity completed during the previous QC meeting and approval of minutes
- AHCA and APD updates
- Presentation from HSRI regarding revised CMS expectations
- Summary of the 2013 annual data from Delmarva reviews
- Overview of iBudget Discovery tools, specifically Technical Assistant Standards

<sup>&</sup>lt;sup>2</sup> The list of topics and number of calls per topic are presented in Attachment 1.

 Summary from the QC workgroup projects: dental access grant and WSC training and apprenticeship proposal

Please see the Delmarva website for complete QC details, minutes, and agendas. <sup>3</sup> The next Quality Council meeting is scheduled for Thursday June 5, 2014, in Orlando at the Hilton Orlando on Destination Parkway.

## **Data Availability**

- The Remediation Data Extract continues to be completed and made available to APD on approximately the 7<sup>th</sup> of each month.
- Production reports are available for download at any time, available on the private section (required member login) of the FSQAP website.
- The Results by Service Real Time Data Report is available on the private section (required member login) of the site.

## **Staff Changes**

Delmarva has hired for the vacant position in the Central Region. Melissa Mothersil will be starting on April 7, 2014.

**Delmarva Foundation** 

<sup>&</sup>lt;sup>3</sup> Information, schedules and minutes of the Quality Council meetings are available on the portal, accessible to all members (<a href="http://portal.ghs-">http://portal.ghs-</a>

inc.org/sites/PAV/DD/FSQAP/Quality%20Council/Forms/AllItems.aspx?RootFolder=%2Fsites%2FPAV%2FDD %2FFSQAP%2FQuality%20Council%20Meeting%20Minutes%20and%20Debriefing%2FQC %202013%2FSeptember%202013.

#### **Section II: Data from Review Activities**

## Person Centered Reviews (PCR)<sup>4</sup>

Information in Table 2 provides the number of PCRs completed by APD Region during the fifth contract year, including the number of CDC+ individuals who participated (72), the number of waiver participants (341), and the total number of individuals who declined. The time period for declines is based upon the projected period of review and represents individuals who were originally scheduled to be reviewed during the quarter. The decline rate is 19.8 percent for waiver participants and 3.4 percent for CDC+.

Table 2: Person Centered Review Activity						
	January - March 2014					
		oer of ines				
APD						
Region	Waiver	CDC+	Waiver	CDC+		
Northwest	34	12	14	0		
Northeast	64	13	18	1		
Central	63	18	14	0		
Suncoast	57	12	13	2		
Southeast	59	4	16	0		
Southern	64	13	9	0		
Total	341	72	84	3		

Individuals are free to decline to be interviewed at any time during the process. Reasons given for the declines are shown in Table 3. When an individual declines participation, the reviewer calls the person to verify the decision. This affords the person an opportunity to ask questions or seek clarification about the PCR process and the person's potential role in it. It also gives individuals an opportunity to change their minds about participating. An individual who declines is replaced by another individual from the oversample to ensure an adequate and representative sample is used for analysis. Approximately 30 percent of the declines were because the person no longer received services (N=9), had passed away (N=9), or had moved out of the state (N=7).

<sup>&</sup>lt;sup>4</sup> See Attachment 2 for a description of review protocols and sampling methodology. All review tools are posted on the FSQAP website (http://www.dfmc-florida.org/Public2/resourceCenter/providers/discoveryReviewTools/index.html).

Table 3: Person Centered Review Decline Reasons					
January -March 2014					
Decline Reason	Waiver	CDC+	Total		
Refused	41	2	43		
Review Next Year	18	1	19		
No Longer Receiving Services	9	0	9		
Deceased	9	0	9		
Moved Out of State	7	0	7		
Total	84	3	87		

#### **Individual Interview Instrument (III) Results**

Each individual who participates in a PCR receives a face-to-face interview that includes the National Core Indicator (NCI) Adult Consumer Survey and the III.<sup>5</sup> The III consists of 12 standards that help determine, from the individual's perspective, how well the service delivery system is meeting needs and goals for the person. Each standard is scored Met or Not Met and is listed in Figure 2.

The CDC+ program provides individuals with flexibility and opportunities not offered to individuals on the Developmental Disabilities (DD) waiver, such as the ability to hire/fire providers, use non-waiver providers, often family members, and negotiate provider rates. A non-paid representative helps with the financial/business aspect of the program and a CDC+ Consultant acts as a service coordinator. CDC+ Consultants must also be certified as Waiver Support Coordinators. Because of these basic differences, PCR results for CDC+ participants are analyzed separately.

# Waiver Participants

The average III scores for the 341 individuals on a DD waiver are presented in Figure 1, for each region and statewide. The average III score for Years 1, 2, 3, and 4 are presented for comparison. It is important to note that approximately a quarter of reviews have been completed. Therefore, comparisons across regions and to previous years should be made with caution. Results to date indicate that outcomes were least likely to be present in the Southern and Central regions and most likely to be present in the Northwest region.

**Delmarva Foundation** 

<sup>&</sup>lt;sup>5</sup> Beginning in Year 3 children under age 18 were included in the PCR sample. Because the NCI Consumer survey is only valid for adults, children do not participate in NCI portion of the PCR process.

Figure 1: Person Centered Reviews
Individual Interview Instrument Results by Area
January – March 2014

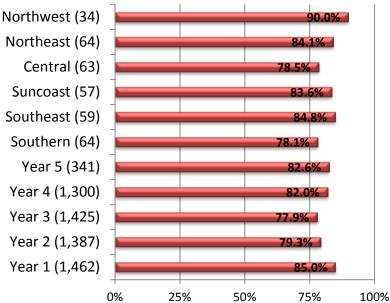

Figure 2 displays III results for DD waiver participants for each standard.<sup>6</sup> III standards measure the following, from the person's perspective:

- safety and health status
- satisfaction with services
- involvement in designing supports and services
- abuse, neglect and exploitation
- developing community social roles
- education on rights and the degree to which individuals exercise those rights
- progress toward desired goals

**Delmarva Foundation** 

<sup>&</sup>lt;sup>6</sup> The description of each standard may be paraphrased to enable it to be displayed in the graph. For more specific details, including probes used when scoring the standard, go to <a href="http://www.dfmc-florida.org/Public2/resourceCenter/providers/discoveryReviewTools/index.html">http://www.dfmc-florida.org/Public2/resourceCenter/providers/discoveryReviewTools/index.html</a>.

Person is afforded choice of services and supports. Person actively participates in decisions 81.7% concerning his or her life. Person directs the design of services, 78.0% identifies needed skills/desired goals. Person participates in routine review of services, directs changes to assure outcomes 85.8% are met. Person has the necessary supports in place to meet needs and goals. Person is free from abuse, neglect and 83.8% exploitation. Person is safe or has self-preservation skills. 84.7% Person is healthy. 74.7% Person is educated/assisted by supports/ services on rights, dignity, respect, and 91.6% privacy. Person is achieving desired outcomes/goals 86.3% or demonstrating progress toward them.

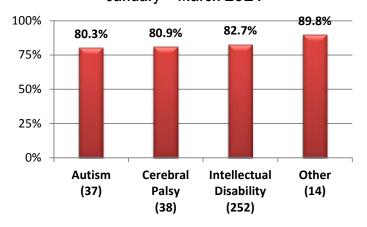

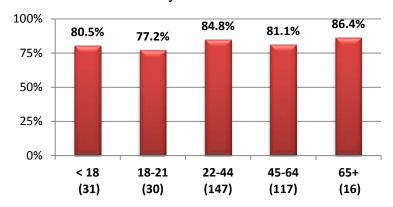

Figure 5: Individual Interview Instrument Results by Age Group January – March 2014

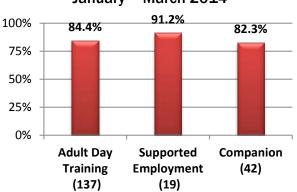

Figure 6: Individual Interview Instrument Results by Service January - March 2014

#### Service Specific Record Reviews (SSRR)

A record review is completed for every service received by individuals who participate in a PCR. Each record is analyzed to determine if the provider is rendering the service in accordance with the requirements specified in The Handbook for that particular service. The number of standards reviewed during the SSRR portion of the PCR varies depending upon type and number of services the person was receiving at the time of the review. For CDC+ participants, Delmarva completes a review of the CDC+ Consultant's record for the person.

Average SSRR results by APD Region are presented in Figure 7. The number of records reviewed per region is provided parenthetically. It is important to realize results shown in Figure 7 are in conjunction with the PCR, to help determine the quality of overall service delivery for specific individuals being served. Findings may not reflect the overall performance of each particular provider, determined through the PDR and presented later in this report.

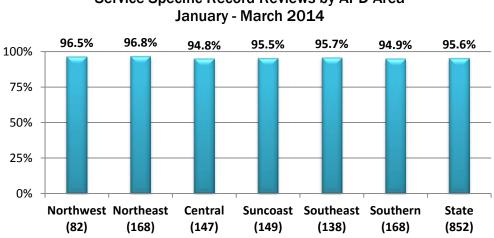

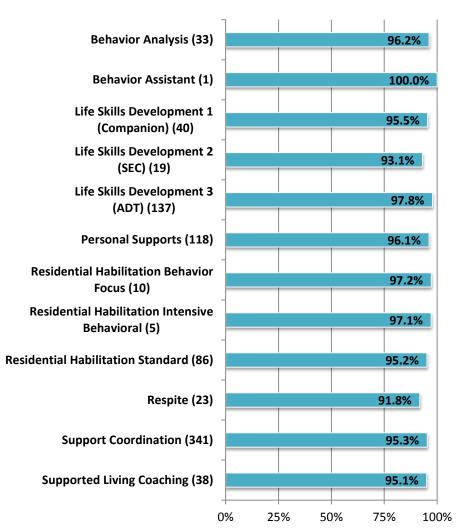

Figure 7: Person Centered Reviews Service Specific Record Reviews by APD Area

Between January and March 2014, 852 Service Specific records were reviewed as part of the 341 PCRs completed in the same timeframe. Results to date indicate all Regions have SSRR Scores greater than 90 percent (Figure 7). Because the tools and processes are different, comparisons to previous years are not appropriate.

Service Specific Record Reviews from the PCRs are presented by service in Figure 8. Each individual may receive any number of services. The number of individuals' records reviewed for the service is presented in parentheses and the percentage is calculated using the weighted values of each standard scored for the records. Results to date indicate very high compliance rates on the SSRR portion of the PCR.

Figure 8: Person Centered Reviews
Service Specific Record Reviews by Service
January – March 2014

#### **Health Summary**

During the PCR, Delmarva reviewers utilize an extensive Health Summary (revision of the Health and Behavioral Assessment) tool to help determine the individual's health status in various areas, such as a need for adaptive equipment; if visits have been made to the doctor or dentist; if the person has been hospitalized or been to the emergency room; and type and number of psychotherapeutic drugs the person is taking. Results for prescription drug use are presented below, and additional data from the Health Summary will be presented in the next report when more information is available.

#### Prescription Drug Use

In addition to general health information, reviewers collect information on all the prescription drugs individuals use. The following table shows the number of prescription drugs taken, by the number of individuals and if the individual is on a waiver or the CDC+ program. Data to date this year indicate close to 20 percent of individuals were taking no prescription drugs and approximately eight percent of waiver participants were taking 10 or more prescription drugs.

Number of Prescription Medications Taken						
	January - March 2014					
	Waiv	er	CDC-	+		
# Rx	% Yes	N	% Yes	N		
0	19.8%	23	20.0%	3		
1	10.3%	12	0.0%	0		
2	12.9%	15	6.7%	1		
3	13.8%	16	6.7%	1		
4	12.1%	14	26.7%	4		
5	5.2%	6	6.7%	1		
6	8.6%	10	13.3%	2		
7	4.3%	5	0.0%	0		
8	3.4%	4	0.0%	0		
9	1.7%	2	13.3%	2		
10+	7.8%	9	6.7%	1		
Total	341	·				

#### **NCI Consumer Review Results**

Results from the NCI interviews will be presented in the Year 5 Annual report, when data from the entire sample are available.

## Provider Discovery Reviews (PDR)<sup>8</sup>

A PDR is completed for each provider who renders services to an individual participating in a PCR. Providers who are not included in the PCR are also reviewed onsite, with the exception of "deemed" providers. Deemed providers achieved a score of 95 percent in their Year 4 review, with no alerts or recoupment citations. During the first quarter of the fifth year of the contract (January – March 2014) 555 PDRs were completed by reviewers and approved by Delmarva management.

The distribution of PDRs by APD Region is presented in Table 7. Between January and March, only two providers either failed to show up for a scheduled review or Delmarva and the APD Regional offices were unable to contact them. A list of non-compliant providers is available to AHCA and APD through the monthly production report, but results from these reviews (all standards scored Not Met) are removed from the analyses in this report.

The average PDR score is fairly consistent across the regions. However, this is the calculated score from all standards reviewed and does not take into account the impact of having an alert. Each alert reduces the score by five percentage points, up to a total of 15 points.

Table 7: Provider Discovery Review Activity January - March 2014						
Non- Average APD Number Compliant Provider Region of PDRs Providers Score						
Northwest	47	0	96.0%			
Northeast	132	1	93.6%			
Central	78	0	94.3%			
Suncoast	116	1	94.4%			
Southeast	93	0	94.3%			
Southern	89	0	93.9%			
State	555	2	94.2%			

<sup>&</sup>lt;sup>8</sup> See Attachment 2 for a description of the review procedures and sampling methodology. All review tools are posted on the FSQAP website (<a href="http://www.dfmc-florida.org/Public2/resourceCenter/providers/discovervReviewTools/index.html">http://www.dfmc-florida.org/Public2/resourceCenter/providers/discovervReviewTools/index.html</a>).

### Administrative Policy and Procedure Results<sup>9</sup>

Each provider is reviewed to determine compliance with Policies and Procedures as dictated in the Florida Medicaid Developmental Disabilities Waiver Services and Limitations Handbook. Compliance scores for all components of the PDR are based on a weighted value assigned to each review standard. Each standard is scored as Met, Not Met, or Not Applicable. However, standards new to the new review processes in 2013 were not scored until February 2014. Providers reviewed in January, with these standards Not Met, were offered technical assistance but the overall PDR score was not impacted.

Since February, 2014, many of these standards are now scored and included in the overall PDR score. However, standards based on the iBudget Handbook, which has not yet been promulgated, will not be scored until the Handbook is promulgated. The following table shows, by region, the number of standards scored with Technical Assistance (TA), the number of PDRs associated with the standards and the average number of TA standards per review.

Table 8: PDRs Met with Technical Assistance January - March 2014						
APD	Number	Number	Number			
Region	Indicators	Providers	Per PDR			
Northwest	75	28	2.68			
Northeast	252	89	2.83			
Central	199	54	3.69			
Suncoast	277	70	3.96			
Southeast	185	63	2.94			
Southern	289	54	5.35			
Statewide	1,277	358	3.57			

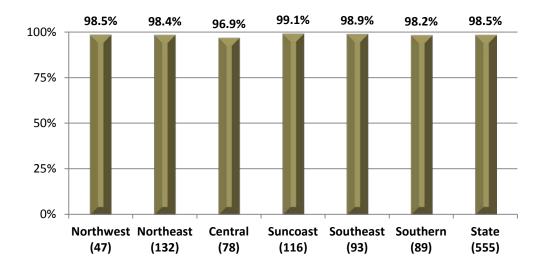

A description of each Standard scored within the Policy and Procedure component of the PDR is shown in Attachment 3. The average score for reviews completed between January and March 2014 was 98.5 percent, with little variation across the different standards.

The average score on the Policy and Procedure (P&P) component of the PDR is shown for all APD Regions and statewide in Figure 12. There is little variation across the Regions. Each provider is currently scored on a maximum of 16 P&P standards, and many standards are only scored for Agency providers.

<sup>&</sup>lt;sup>9</sup> N sizes may vary throughout the report due to missing and/or not applicable data.

<sup>&</sup>lt;sup>10</sup> See Attachment 2 for a description of the weighting process and scoring methodology.

Figure 12: Provider Discovery Reviews
Average Policy and Procedure
January – March 2014

#### **Qualifications and Training Requirements**

Providers are required to have certain training and education completed in order to render specific services. They can be scored on up to 51 standards depending on the type and number of services offered. A description of each standard scored within the Administrative Qualifications and Training component of the PDR is shown in Attachment 4. Eleven of the 51 standards were not scored as they are new to the IBudget Handbook.

For each provider, several employee records may be reviewed per standard. The average compliance on standards measuring the provider's compliance with qualifications and training was 96 percent. Compliance rates across the standards were quite high with 28 of 41 standards reflecting a rate of 95 percent or greater. The average compliance score for the training standards, by APD Region, is presented in Figure 13. Findings show little variation across the state.

Average Qualifications and Training Scores by APD Area

January – March 2014

#### Service Specific Record Review Results (SSRR)

During the PDR, a sample of individuals is used to review records for each service offered by the provider. The number of records reviewed depends upon the size of the organization and the number of services provided. At least one record per service is reviewed, up to a minimum of 10 records for larger providers (caseload of 200 or more). Records reviewed during a PCR are incorporated into the providers' PDR results, if the records are reviewed prior to conducting the PDR. Additional records are randomly sampled at the opening of the PDR. The SSRR tool includes a review of standards specific to each service.

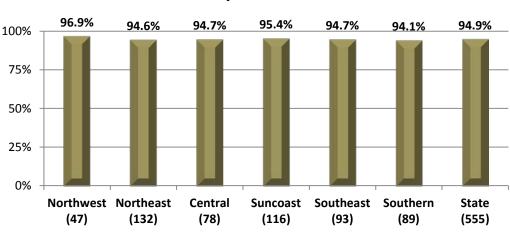

Figure 14: Provider Discovery Reviews
Average Service Specific Record Review Score by APD Area
January – March 2014

A total of 1,530 SSRRs were completed between January and March 2014 as part of a PDR. The distribution of results across APD Regions is presented in Figure 14, with the number of PDR reviews in parentheses. On average, the 555 providers reviewed scored 94.9 percent, somewhat

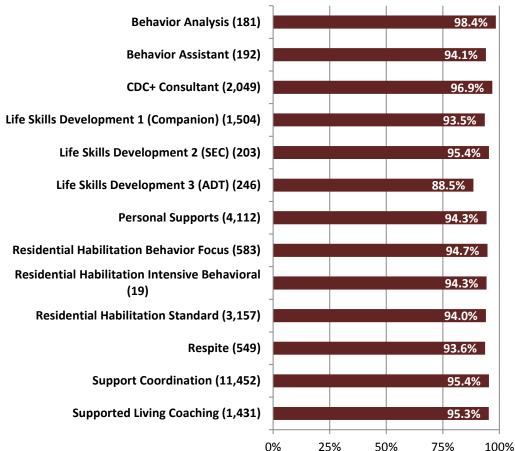

lower than for the SSRRs completed as part of the PCR (95.6%). There is little variation in scores across regions.

Service Specific Record Review results by service are presented in Figure 15, with the number of records reviewed in parentheses. It is important to note that providers generally offer more than one service. Therefore, each provider may have results included in various services. Results show a variation from 88.5 percent for Life Skills Development 3, to 98.4 percent for providers of Behavior Analysis.

Figure 15: Provider Discovery Reviews

Average Service Specific Record Review Scores by Service

January – March 2014

#### **Observation Results**

Delmarva reviewers conduct onsite observations of up to 10 group homes when reviewing providers of Residential Habilitation. For Life Skills Development 3 (ADT) facilities (Day Programs), all locations operated by the providers receive an onsite observation. During this portion of the PDR

process, reviewers observe the physical facility and also informally interview staff, residents, and day program participants as needed and as possible. To date this year, Delmarva reviewers conducted observations at 10 LSD 3 locations and 218 group homes (Table 8). The Day Programs served 228 individuals and the group homes were operated by providers who served 935 individuals.

Table 8: Provider Discovery Review						
Num	ber of Location	s Observed	d by Region			
	January - I	March 201	.4			
Residential Adult Day Training Habilitation						
APD Region	Locations	Served	Location	Served		
Northwest	0	0	9	31		
Northeast	4	72	28	143		
Central	1	18	21	89		
Suncoast	2	18	71	305		
Southeast	1	72	45	209		
Southern	2	48	44	158		
State	10	228	218	935		

The average statewide PDR Observation score for reviews completed between January and March 2014 was 98.4 percent. <sup>11</sup> Results by region will be displayed in the next quarterly report. To date, no Regions had more than 50 locations reviewed.

#### Alerts

At any time during a review if a situation is noted that could cause harm to an individual, the reviewer immediately informs the local APD office. Delmarva calls the abuse hotline, if appropriate, records an Alert, and notifies both the local APD Regional and State offices. Alerts can be related to health, safety or rights. In addition, when any provider or employee who has direct contact with individuals does not have all the appropriate background screening documentation on file, an Alert is recorded and both the APD Region and Central offices are notified.

The number of alerts recorded during the contract year is shown in the following table, by APD Region. As with previous years, the majority of Alerts was due to a lack of required documentation

<sup>&</sup>lt;sup>11</sup> Review tools are posted here and include detailed descriptions of each standard: <a href="http://www.dfmc-florida.org/Public2/resourceCenter/providers/discoveryReviewTools/index.html">http://www.dfmc-florida.org/Public2/resourceCenter/providers/discoveryReviewTools/index.html</a>.

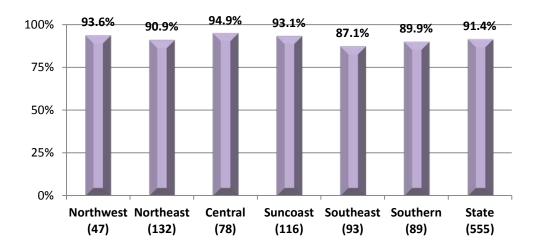

needed to provide evidence background screening had been completed (48). An additional 21 alerts were reported, primarily for a Medication, Health and Safety, or Driver's License issue.

Table 11: Provider Discovery Reviews							
	Number of Alerts by APD Region (Jan – Mar 2014)						
APD Region	Rights	Health & Safety	Abuse, Neglect, Exploitation	Medication	Driver's License	Vehicle Insurance	Background Screening
Northwest				1			3
Northeast				3	1		12
Central		1		1	1		4
Suncoast		2		2	1		8
Southeast	1	1			1		12
Southern	1	1		2	1		9
State	2	5	0	9	5	0	48

### **Background Screening**

The following figure shows the percent of providers in each APD Region for which all provider records reviewed for all employees had adequately documented background screening requirements. One provider may have one or several employees not in compliance with the standard. Statewide compliance is approximately 91 percent. There is some variation across the regions, to date this year: 87 percent of providers in the Southeast region were compliant while almost 95 percent of providers in the Central region were compliant on the standard.

Figure 17: Provider Discovery Reviews
Background Screening by APD Region; Percent Met
January – March 2014

While 48 providers received an alert for lack of background screening (8.6%), each provider could have one or more employees who were found to be non-compliant on background screening. One or more reasons can be provided by the reviewer as to why the provider was not in compliance with this standard. A total of 71 reasons were cited. Table 10 displays the reason the standard was Not Met for all employee records reviewed for the 48 providers with a background screening alert. Employees were most likely to be missing the local criminal records check from the county of residence (33.8%), the FBI screening letter (25.4%), or the FDLE screening clearance letter (18.3%).

Table 10: Provider Discovery Reviews	
Reason Background Screening Scored Not Met (N=71)	
January - March 2014	
Reason	Percent
Provider did not present a current complete, signed and notarized Affidavit of Good Moral Character.	14.1%
Provider presented a current Affidavit of Good Moral Character, but it was not signed.	1.4%
Provider did not present a current complete and signed Affidavit of Compliance with Background Screening Requirements.	2.8%
Provider did not present a current Local Criminal Records Check obtained within county of residence.	33.8%
Provider did not present a current Florida Department of Law Enforcement screening clearance letter or other acceptable form of FDLE screening.	18.3%
Provider did not present a current Federal Bureau of Investigation screening clearance letter or other acceptable form of FBI screening.	25.4%
Provider has not completed the five-year re-screening. (Pre 8/2010 FDLE Only)	4.2%

#### **Potential Billing Discrepancy Citations**

Standards are identified as a Billing Discrepancy if the standard applies to billing documentation requirements. If scored as Not Met, these are flagged by the reviewer as a potential discrepancy for the provider and the Regional APD office and AHCA are notified. The following table provides an overview of potential Billing Discrepancies documented during the 555 PDRs completed between January and March 2014. Data indicate the following:

- Approximately 28.6 percent of the providers reviewed had at least one recoupment citation, a decrease for an average of 50 percent over previous years.
- The percent of providers with a potential recoupment varied widely across Regions, from 19.1 percent in the Southern region to 36.6 percent in the Southeast.
- In five of the six regions, over a quarter of the providers reviewed had a potential recoupment.
- The average number of citations per provider is 1.8.

Table 14: Provider Discovery Reviews							
	Recoupment Citations by APD Region						
		January – Mar	ch 2014				
Recoupment Providers w/ Total Pct w/ at Ave # Standards Recoupment Number Least 1 Citations Region Not Met Citation of PDRs Recoupment / Provider

Statewide	281	159	555	28.6%	1.8		

# **Consumer Directed Care (CDC+)**

## **CDC+ Participants**

Between January and March 2014, 72 CDC+ participants were interviewed as part of the PCR process. The number and percent of CDC+ PCRs completed by Region is provided in the following table.

CDC+ Person Centered Reviews						
Region	Number	Percent				
Northwest	12	16.7%				
Northeast	13	18.1%				
Central	18	25.0%				
Suncoast	12	16.7%				
Southeast	4	5.6%				
Southern	13	18.1%				
State	72					

Results are presented by III Standard in Table 13 for the 72 PCRs completed for CDC+ participants, with comparisons to previous years, reflecting lower scores on most standards.

#### **CDC+ Consultant**

For each individual CDC+ participant who participated in the PCR process, a review of the person's record held by the CDC+ Consultant (CDC-C) who works with the person is completed. Results by standard are shown in Attachment 5 for the 72 CDC+ Consultant record reviews. To date, findings on each standard are relatively high with all but one at over 90 percent compliance.

### **CDC+ Representative (CDC-R)**

CDC+ participants have a Representative (the participant is sometimes also the Representative), who helps with the "business" aspect of the program: such as hiring providers, completing and submitting timesheets, or paying providers. This is a non-paid position and is most often filled by a family member. Delmarva reviewers monitor the Representative's records to help determine if the Representative is complying with CDC+ standards and Medicaid requirements. Between January and March 2014, 80 CDC+ Representatives were reviewed.

CDC-R results for each standard are presented in Attachment 6. On average, Representatives showed 90 percent compliance on the record reviews. The lowest scoring standard indicated 68.3 percent of CDC Representatives had documentation to support reconciliation of monthly statements.

# **Section III: Discovery**

Findings in this report reflect data from PCR and PDR review activities completed between January and March 2014. A total of 341 PCRs and 555 PDRs were completed, approved and available for analysis. Over the time period, only two providers were non-compliant, indicating they either did not respond to attempts to schedule a review or did not show up for a scheduled review.

During this most recent quarter (January – March 2014) Delmarva helped facilitate the Quality Council meeting in March, and Delmarva participated on the two different workgroups organized by the council. Delmarva helped facilitate and/or participated in the workgroups organized to develop new performance measures for the Waiver renewal. Quarterly meetings were held in each APD Region to discuss data, trends, issues, and remediation. Regional managers continue to review all reports before final approval and conduct bi-weekly meetings for all reviewers. The Delmarva nurse attends the monthly Medical Case Managers conference calls and is available for all reviewers if health or medication issues surface during a review.

#### **Person Centered Review Results**

The PCR is designed to help determine how well the service delivery system is meeting the specific needs of the individual. As part of the PCR, responses on the Individual Interview Instrument reflect outcomes and satisfaction with services from the perspective of the individual, using 12 different standards that measure choice, rights, health, safety, the person's involvement in the service planning process, community involvement and other outcomes.

Results from the Individual Interview show the average score is the same as that for Year 4. However, there was a decrease in the degree to which individuals felt educated on rights, felt they are achieving desired outcomes, and were satisfied with supports and services. Outcomes in other areas appear to have improved. These are tentative results and will be tracked over the year as we include a greater number of interviews from the sample. Similar to previous years, individuals in independent living environments and individuals receiving Supported Employment continue to have better outcomes than individuals in other residential settings or receiving other types of services.

The PCR sample is taken from the APD database (ABC), with information in the database provided by Support Coordinators for each person they serve. However, approximately 30 percent of the "declines" for the PCR process were because the person no longer received services (N=9), had passed away (N=9), or had moved out of the state (N=7). The state is in the process of building a new, technologically advanced database to support the entire iBudget quality management system. As part of this effort, data from ABC will be uploaded into the new system.

**Recommendation 1**: Given the error rate reflected in the current PCR sample, based on ABC data, we recommend APD implement a time sensitive strategy to ensure all support coordinators have updated information for the people they serve.

**Recommendation 2**: Delmarva will continue to track some of the III decreases witnessed to date in this report (January – March 2014), and recommend improvement strategies if current trends persist throughout the year.

## **Provider Discovery Review Results**

Results from the 555 PDRs indicate providers continue to perform very well documenting their Policies & Procedures (98.5%), Qualifications and Training (96%), and Service Specific requirements (94.9%).

Some standards reviewed as part of the new tools and processes implemented in February 2013 began to be scored in February 2014. Other standards new to the iBudget will continue to be scored with Technical Assistance (TA) until the iBudget Handbook is promulgated. When these are scored "Not Met, TA provided" it demonstrates a need for training on iBudget rules and expectations. Of the 555 PDRs completed, 358 (64.5%) scored at least one of these standards Not Met.

**Recommendation 3**: A majority of providers missed at least one of the new iBudget standards. Because technical assistance was provided on these standards in 2013, regional offices should consider additional training and/or assistance for providers to help ensure they are in compliance with these standards when the Handbook is promulgated.

Extremely positive findings to date this year are the **increase** in the percent of providers with all background screening compliance requirements met and the **decrease** in the proportion of providers with a potential billing discrepancy. Background screening compliance is over 91 percent for the first time since this standard has been tracked in 2001. While the previous four years of the current contract have reflected a slow decline in the number of providers with a billing discrepancy, the rate has remained close the 50 percent—data this quarter show approximately 29 percent.

Additional discussion of findings and recommendations will be provided when more data are available in the next quarterly and the 5<sup>th</sup> Annual report.

# **Attachment 1: Customer Service Activity**

January - March 2014

Customer Service Topic	#	Description	Outcome	Ave Time
Address/ Phone Update	47	Providers call to update their phone numbers/addresses	Phone numbers/addresses are updated in the Discovery application, and providers are advised to update same with AHCA	1 day
Background Screening	5	Providers and provider consultants call with questions regarding FL background screening requirements.	Background screening requirements are explained to providers, with reference to the Handbook and FL rule.	1 day
CDC+	2	CDC+ Representative/ mother asked why her review was taking place at the local APD office. Provider called about CDC+ provider qualifications.	Representative/mother was referred to her local APD office for clarification after intervention by Charles Ball. Provider was referred to CDC+ rule book.	1 day
Clarification	26	Providers and APD staff called asking for clarification on our tools.	Questions were answered, and where necessary, callers were referred to source documents.	1 day
Complaint	1	Provider requested a different QAR from the previous year	Referred to the appropriate supervisor for resolution.	1 day
Contact QAR	3	Providers call to contact the QAR assigned to do their review.	QAR is contacted by office staff and asked to contact the provider	1 day
Delmarva Online Training	5	Providers call with questions about how to access training.	Providers are assisted with following the instructions online to register or are referred to the helpdesk for technical assistance.	1 day
HSRI Family Survey	1	Family members who received the HSRI surveys called with questions regarding completion.	Assistance was provided to the callers in completing the surveys.	1 day
Miscellaneous/	21	Family stakeholders and providers called with	All questions were answered.	1 day

		resources on our website; for explanations of the review processes.		
Reconsideration	39	Providers call asking for clarification on the process to submit a request for reconsideration or inquiring as to the status of a request already submitted	The reconsideration process is explained to providers, including reference to our Operational Policies and Procedures and their report cover letters; reconsiderations submitted are researched and providers are given an expected delivery date. Status of each is checked and relayed to the provider.	1 day
Billing Discrepancies	11	Providers called asking how to handle the potential billing discrepancy identified in their PDR reports.	Providers are referred to their local APD office with billing discrepancy questions.	1 day
Report Requested	8	Providers called or emailed requesting their report be re-sent.	Reports are re-sent with address confirmation and providers are advised of same.	1 day
Review Reports	26	Providers called asking for explanation of their reports.	Their reports are explained; providers are referred to their local APD office for technical assistance.	1 day
Training	36	Providers and provider consultants called asking about training requirements.	Training requirements are explained, including reference to the Handbook.	1 day
Total Number of C	alls:	334		

#### **Attachment 2: Overview of Review Processes**

#### **Person Centered Review**

The purpose of the Person Centered Review is to evaluate an individual's service delivery system, from the perspective of the individual. The process begins with an interview of an individual receiving service, through a Developmental Disabilities (DD) waiver or Consumer Directed Care (CDC+). If appropriate the family member or legal representative is interviewed instead of the individual receiving services.

Through the interview and Service Specific Record Reviews (SSRR), Delmarva Reviewers assess several aspects of the system including:

- > Consumer satisfaction with services;
- Person's involvement in the Support Plan process;
- > Deployment of services as specified in the Support Plan;
- ➤ Health and safety of the individual.

The PCR includes several components:

- ➤ NCI Adult Consumer Survey;
- ➤ Individual Interview Instrument;
- ➤ Health Summary;
- ➤ Medical Peer Review;
- Service Specific Record Reviews.

The individual interview begins with the National Core Indicator (NCI) Adult Consumer Survey. The National Core Indicators is a collaboration among participating National Association of State Directors of Developmental Disability Services (NASDDDS) member state agencies and the Human Services Research Institute (HSRI), with the goal of developing a systematic approach to performance and outcome measurement. Data from this survey are used by Human Services Research Institute (HSRI), Delmarva's subcontractor on this contract, to draw comparisons to over 25 other states that also collect the data. Data will also be available for Delmarva to use aggregately in annual reports to AHCA and APD.

In addition to the NCI Consumer Survey, the interview process includes the Individual Interview Instrument (III or I<sup>3</sup>) to help assess individuals' perspectives of their rights, choices, involvement in Support Plan development and making life decisions, community inclusion, health, safety, and

<sup>&</sup>lt;sup>12</sup> HSRI developed the NCI survey instruments. More information can be found at the following web site: http://www.hsri.org/.

satisfaction with services. A Health Summary is used to further explore the individual's specific health issues including: psychotropic drug use; hospital and emergency room use; dental and family practitioner care; and an assessment of a wide variety of health issues and service needs.<sup>13</sup>

The Delmarva Nurse Administrator conducts a Medical Peer Review to determine if further action may be needed to benefit the individual. For example, the individual may indicate being in good health. However, through the Medical Peer Review claims data indicate multiple trips to the hospital. This would generate a Focused Review that may involve APD's Medical Case Manager.

Service Specific Record Reviews (SSRR) are completed for each service the individual receives. Services included in this process are the services reviewed through the Provider Discovery Review (PDR) as specified in the contract (See PDR section for list of services). Record reviews help determine provider documentation of the extent to which the service is rendered as delineated in the Support Plan and whether records are maintained to justify billing.

At any time during the PCR process if a reviewer notes a situation that presents immediate danger to the health or safety of an individual, an alert is recorded and the local APD office, central APD office, and/or AHCA are notified, depending upon the nature and severity of the alert. The abuse hotline is called if appropriate.

### **Provider Discovery Review (PDR)**

The Provider Discovery Review is an onsite evaluation of the provider's overall organization to help determine compliance with standards in the Developmental Disabilities Waiver Services Coverage and Limitations Handbook and other APD requirements. Providers rendering the following services are eligible for a PDR:

- ➤ Behavior Analysis
- > Behavior Assistant
- ➤ CDC+ Consultant
- Life Skills Development (Companion)
- Life Skills Development 2 (SEC)
- ➤ Life Skills Development 3 (ADT)
- Personal Supports
- Residential Habilitation Behavior Focus
- Residential Habilitation Intensive Behavior
- Residential Habilitation Standard
- Respite

<sup>&</sup>lt;sup>13</sup> Delmarva review tools and procedures are available here: <a href="http://www.dfmc-florida.org/public/review\_tools.aspx">http://www.dfmc-florida.org/public/review\_tools.aspx</a>.

- Support Coordination
- Supported Living Coaching

The PDR has several components:

- Administrative Record Review
- Service Specific Record Review
- ➤ Onsite Observation (ADT and Residential Habilitation)
- > Interviews with provider and other staff

During the Administrative Record Review, Delmarva Quality Assurance Reviewers (QAR) review documentation for the organization's policies and procedures, as well as compliance with background screening and all relevant training requirements. A sample of employee records is used to determine compliance with all standards for each service rendered by the provider.

The Service Specific Record Review (SSRR) component uses the same documentation review tool as described for the PCR to review a random sample of individual records for each service the provider offers. At least one record per service is reviewed, up to a minimum of 10 records for larger providers (caseload of 200 or more).

Onsite Observations are completed for all ADT sites and up to 10 group homes (ResHab) operated by the provider. During the onsite visit reviewers observe the day to day activities of the facility as well as noting the physical condition of the building. Reviewers interview staff present at the time and individuals willing to participate in a conversation.

At any time during the PDR process if a QAR notes a situation that presents immediate danger to the health or safety of an individual, an alert is recorded and the local APD office, central APD office, and/or AHCA are notified, depending upon the nature and severity of the alert. The abuse hotline is called if appropriate.

### Sample

Each Waiver Support Coordinator (WSC) and CDC+ Consultant in the state was incorporated into the sample selection process. All individuals receiving services through either the DD waivers or CDC+ program were part of the sampling frame. The sample is random and the probability of selection is known, making it suitable for national comparisons and analysis with standard statistical tests (t-test). The sampling process followed the steps outlined here:

1. WSCs were stratified by CDC+ Consultant status.

- 2. A 10 percent random sample of the CDC+ population was first sampled from each CDC+ Consultant, with no more than one individual sampled per Consultant. At the time the sample was pulled, only five CDC+ Consultants were not also serving individuals on the DD waiver as a WSC.
- 3. Up to two individuals receiving services through the DD waivers were randomly selected from each WSC selected in the second step, one individual if a CDC+ participant had already been selected.

This random sample chosen for the PCR is representative of the population of individuals receiving services through the HCBS DD waivers, stratified by Waiver Support Coordinator.

### Provider Performance Weighting and Scoring Methodology<sup>14</sup>

On February 1, 2013, new tools for the iBudget were implemented statewide. When calculating scores from the process some Standards are weighted heavier than others, particularly Standards vital to the service (Support Coordinator has a current copy of the Support Plan) or the health and welfare of individuals (reporting incidences of abuse, neglect or exploitation).

A workgroup consisting of representatives from AHCA, APD and Delmarva convened to determine weights to be assigned to standards in the new iBudget tools, ranging from 0 to 3. A standard is weighted zero (0) if it is scored Not Met through no fault of the provider. For example, the provider does not have a specific required training because it was available. This document outlines the method for weighting Standards in the recently implemented tools.

#### Weight

Each Standard has one or more reasons provided as to why the Standard is not met. Some reasons for noncompliance are more egregious that others. Therefore, each reason is weighted, with a majority weighted as one (1). The weighted value for the standard will be the value assigned to the reason(s) with the highest weight. In the following example the first and third reasons are more critical to the health and safety of the person than the second reason and are weighted more heavily. The standard has a weighted score of three (3) due to the potential impact on health and safety.

**Delmarva Foundation** 

<sup>&</sup>lt;sup>14</sup> The scoring methodology was developed in May 2010 by a workgroup consisting of representatives from the Agency for Health Care Administration, the Agency for Persons with Disabilities, and Delmarva Foundation.

Standard	Reason Not Met	Category	Weight
The provider has a method in place to gather information about the individual's physical, behavioral and emotional health on an ongoing basis.	1) Provider has no method in place to gather information about the individual's physical, behavioral and emotional health	Health & Safety	3
	2) The provider is knowledgeable of the individual's physical, behavioral and emotional health but documentation does not demonstrate provider's efforts to gather information for the records.		1
	3) Key/Critical pieces of health and behavioral information were absent from the file.	Health & Safety	3

The following Standard is related to person centered practices, with a weighted score of two (2).

Standard	Not Met Reason	Category	Weight
The provider assists the individual/legal representative to know about rights.	Provider documentation did not reflect evidence of assisting the individual/legal representative to know about rights.	Person Centered	2
	2) Provider was able to describe efforts to assist the individual/legal representative to know about rights, but had not documented the information.		1

The following example shows a Standard that if not met is a **potential** billing discrepancy because this Standard could be scored not met but not be a recoupment. These reasons are weighted as one (1). The reasons that drive the recoupment are weighted more heavily (2). The weighted score for the Standard is two (2).

Standard	Not Met Reason	Category	Weight
The third Quarterly/Annual Report covering services provided and billed during the period under review is in the record.	Current third Quarterly/Annual Report covering services provided/billed during the period under review was not in the record.     (R)	Recoupable	2
	2) Third Quarterly/Annual Report covering services provided/billed during the period under review did not contain a summary of the recipient's progress toward achieving Support Plan goal(s).		1
	3) Third Quarterly/Annual Report covering services provided/billed during the period under review did not contain a summary of the first three quarters of the Support Plan year.		1
	4) Third Quarterly/Annual Report covering services provided/billed during the period under review was completed, but not within required timeframes. (R)	Recoupable	2

The following example is typical of most Standards scored during the review. All reasons are weighted as one (1).

Standard	Not Met Reason	Category	Weight
Training for parents, caregivers and staff on the Behavior Analysis Service Plan is documented.	1) Documentation did not reflect training for parents/other caregivers on the Behavior Analysis Service Plan.	Do It	1
	2) Documentation did not reflect training for staff on the Behavior Analysis Service Plan.	Do It	1
	Documentation reflected training for some, but not all of the people integral to the plan.	Do It	1

The overall PDR Score is calculated using the weighted value of the sum of all standards scored: Administrative, SSRR and Observations. The total Met is divided by the total scored. However, because alerts are considered quite egregious, five (5) percentage points per alert are subtracted from the calculated score, up to a total of 15 points.
